Hospitality

Education

Offices

All sectors

DESCRIPTION

HDMI 2.0 Splitter (1 input x 8 outputs). Distributes the same image to multiple TVs. You can display the same video and audio content on different TVs to be seen by more people. In addition, you can distribute the signal to TVs of different resolution, thanks to the DOWN-SCALING function that auto adjusts the output signal to the TV resolution. For installations where several TVs are needed for the audience such as exhibitions, showcases, training rooms, conference rooms, sports centres, bars, restaurants, etc.
