

# AMPLIFICATORE PA A 2 CANALI USCITA 100V,POTENZA 2 X 400W

PA power amplifier

Reference: FSD-2500E

Multi-channel PA power amplifier with 100 V line output. Benefits: High power amplifier in only 1 U of rack. Especially for PA installations with 100 V or 70 V loudspeakers. Highly efficient and reliable class D amplifier thanks to low-maintenance protection circuits. Safe and easily connectable euroblock connectors. DANTE compatibility via the optional model FSD-22D. Excellent sound quality and little noise. Lightweight. Applications: Multi-zone PA and piped music systems with 100 V or 70 V line speakers. Commercial spaces, sports facilities, educational centers, conference rooms, cafes, restaurants, theme parks, etc. Technical data: 2 x 400 W RMS 100 or 70 V output. Test or emergency input with priority via contact closure. Contact closure disablement to mute or change connections within the amplifier. Fault indicator via GPIO level output.
