

Weatherproof directional sound column

Weatherproof directional
sound column

Reference: FCS-8250DS

Weatherproof directional sound column BENEFITS Sound column with configurable directivity, designed to concentrate sound in the listening area and improve speech intelligibility. High performance, high power multi-channel Class D amplifier, providing high sound quality and high S/N ratio. Its features make it very suitable for indoor and outdoor PA installations, as it has water protection (IP-65), aluminium grille and body and it includes stainless steel mounts. The built-in DSP allows you to adjust the tilt of the sound beam ($\pm 45^\circ$), the selection of focal length up to 100 m that automatically configures the width of the beam (95° to 5°) and 15-band graphic equalization, all of this configurable by IP through web browser. APPLICATIONS For PA and professional sound installations in enclosed or open spaces with high reverberation. TECHNICAL DATA 240 W RMS, 8 x 30 W RMS 8 x 5" speakers Coverage angle 120° H x 50° V ($\pm 45^\circ$)
